				OTHER MEDIA			
Plein Air Painting is a phrase borrowed from the French equivalent meaning "open (in full) air". It is particularly used to describe the act of painting outdoors where a painter reproduces the actual visual conditions seen at the time of the painting. This method contrasts with studio painting or creating a pre-determined look or working from photos. In this show the works must have been finished at least 90% on location.				501	Geri Smith	Weather System	NFS
